

CECBP: Future Directions

Rupali Das, MD, MPH
California Department of Public Health

California Environmental Contaminant
Biomonitoring Program (CECBP)
Scientific Guidance Panel Meeting

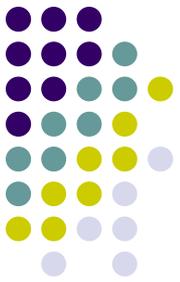

October 6, 2009
Sacramento, California

Ongoing Program Efforts

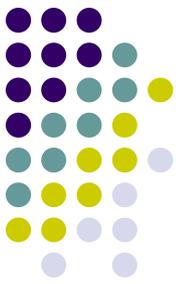

- Chemical selection
- Public participation plan
- Hire new staff
- Legislative report

Program Efforts (I)

- Pursue opportunities and collaborations to leverage existing resources
- Conduct activities specified in the CDC cooperative agreement to increase laboratory capability and capacity
- Conduct outreach efforts to identify and engage additional stakeholders

Program Efforts (II)

- Maintain, expand electronic resources
- Meet with the SGP three times per year
- Support SGP for selecting designated, priority chemicals
- Develop results communication methods and materials for individual participants, health care providers, others
- Develop biomonitoring reference levels
