

SGP Agenda Planning for 2015

Laurel Plummer, Ph.D.
Office of Environmental Health Hazard Assessment
Scientific Guidance Panel Meeting
November 6, 2014

Purpose of agenda item

- To review possible agenda items for SGP meetings in 2015
 - Friday, March 13, 2015 (Oakland)
 - Thursday, July 16, 2015 (Oakland)
 - Wednesday, November 18, 2015 (Sacramento)
- To obtain Panel and public input and suggestions

Possible agenda topics

- General Program and laboratory updates
- Program findings
 - Biomonitoring results as they become available
 - Synthesis of and conclusions from Program studies so far
- Discussion of how current Program studies can inform efforts to approximate a statewide representative sample
 - Collaboration with Genetic Disease Screening Program (GDSP)
 - Biomonitoring Exposures Study (BEST)

Possible agenda topics (2)

- Program progress on methods to screen for “unknowns” and discussion of related issues
- Discussion of measuring cotinine and other tobacco biomarkers

Possible agenda topics (3)

- Evaluations of results return materials
 - Guest speaker on MIEEP* evaluation
 - Report back on BEST evaluation
- Update on website use and other measures of public engagement (e.g., via the listserv)

**Maternal and Infant Environmental Exposure Project (MIEEP)*

Possible agenda topics (4)

- Results from systematically reviewing consumer product chemicals currently on Biomonitoring CA lists
- Guest speaker on HERMOSA* intervention study findings
- Follow up on collaborations with Safer Consumer Products (SCP) program and other state agencies

**Health and Environmental Research in Make-up of Salinas Adolescents (HERMOSA) Study*

Chemical selection – potential designated chemicals

Planned for 2015

- Phthalates as a class
- Perfluorinated chemicals* as a class

Other items being tracked

- Additional classes of musks (alicyclic and macrocyclic)
- Pesticides from August 2013 screen
 - Imidacloprid (or chemical groups such as neonicotinoids or pet pesticides)
 - Glyphosate
 - Glufosinate ammonium
 - Propanil

**Perfluoroalkyl and polyfluoroalkyl substances (PFASs)*

Chemical selection – potential **priority** chemicals

- Suggestions based on [October 2014 list of designated chemicals](#)
 - Refer to [excerpt of designated list](#) showing those chemicals that are not priority chemicals

Chemical selection – preliminary screening

- Phthalate substitutes
- BPA substitutes (other than *p,p'*-bisphenols)
- UV stabilizers/filters
- Fragrance compounds
- Disinfectants/antimicrobials
- Additional environmental phenols
- Other chemicals in consumer products

Topics suggested by Panel or public

- Program or laboratory topics
- Chemical selection suggestions
- Other possible topics
