

## Selected References for Morning Session

### Biomonitoring California Scientific Guidance Panel Meeting March 3, 2016

Dallmann TR, Harley RA, Kirchstetter TW (2011). Effects of diesel particle filter retrofits and accelerated fleet turnover on drayage truck emissions at the Port of Oakland. *Environ Sci Technol* 45:10773–79. Abstract only available at: <http://pubs.acs.org/doi/abs/10.1021/es202609q>. Full article available upon request.

DeMarini DM (2013). Genotoxicity biomarkers associated with exposure to traffic and near-road atmospheres: a review. *Mutagenesis* 28:485-505. Available at: <http://mutage.oxfordjournals.org/content/28/5/485.full.pdf>.

Galaviz VE, Quintana PJ, Yost MG, Sheppard L, Paulsen MH, Camp JE, Simpson CD (2015). Urinary metabolites of 1-nitropyrene in US-Mexico border residents who frequently cross the San Ysidro Port of Entry. *J Expo Sci Environ Epidemiol* DOI: 10.1038/jes.2015.78 [Epub ahead of print]. Abstract only available at: <http://www.ncbi.nlm.nih.gov/pubmed/26669848>. Full article available upon request.

Galaviz VE, Yost MG, Simpson CD, Camp JE, Paulsen MH, Elder JP, Hoffman L, Flores D, Quintana PJE (2014). Traffic pollutant exposures experienced by pedestrians waiting to enter the U.S. at a major US–Mexico border crossing. *Atmos Environ* 88:362-9. Abstract only available at: <http://www.sciencedirect.com/science/article/pii/S1352231013009874>. Full article available upon request.

Garcia AP, Wallerstein N, Hricko A, Marquez JN, Logan A, Nasser EG, Minkler M (2013). THE (Trade, Health, Environment) Impact Project: A community-based participatory research environmental justice case study. *Environmental Justice* 6:17-26. Abstract only available at: <http://online.liebertpub.com/doi/abs/10.1089/env.2012.0016>. Full article available upon request.

Li Z, Mulholland JA, Romanoff LC, Pittman EN, Trinidad DA, Lewin MD, Sjödin A (2010). Assessment of non-occupational exposure to polycyclic aromatic hydrocarbons through personal air sampling and urinary biomonitoring. *J Environ Monit* 12:1110-8. Abstract only available at: <http://www.ncbi.nlm.nih.gov/pubmed/21491629>. Full article available upon request.

Miller-Schulze JP, Paulsen M, Kameda T, Toriba A, Tang N, Tamura K, Dong L, Zhang X, Hayakawa K, Yost MG, Simpson CD (2013). Evaluation of urinary metabolites of 1-nitropyrene as biomarkers for exposure to diesel exhaust in taxi drivers of Shenyang, China. *J Expo Sci Environ Epidemiol* 23:170-5. Abstract only available at: <http://www.ncbi.nlm.nih.gov/pubmed/22588216>. Full article available upon request.

Morgott DA (2014). Factors and trends affecting the identification of a reliable biomarker for diesel exhaust exposure. *Crit Rev Env Sci Tec* 44:1795-1864. Available at: <http://www.ncbi.nlm.nih.gov/pmc/articles/PMC4118891/>.

Nethery E, Wheeler AJ, Fisher M, Sjödin A, Li Z, Romanoff LC, Foster W, Arbuckle TE (2012). Urinary polycyclic aromatic hydrocarbons as a biomarker of exposure to PAHs in air: a pilot study among pregnant women. *J Expos. Sci. Environ. Epidemiol* 22:70-80. Abstract only available at: <http://www.nature.com/jes/journal/v22/n1/full/jes201132a.html>. Full article available upon request.

Preble CV, Dallmann TR, Kreisberg NM, Hering SV, Harley RA, Kirchstetter TW (2015). Effects of particle filters and selective catalytic reduction on heavy-duty diesel drayage truck emissions at the Port of Oakland. *Environ. Sci Technol* 49:8864-71. Abstract only available at: <http://pubs.acs.org/doi/abs/10.1021/acs.est.5b01117>. Full article available upon request.

Seidel A, Dahmann D, Krekeler H, Jacob J (2002). Biomonitoring of polycyclic aromatic compounds in the urine of mining workers occupationally exposed to diesel exhaust. *Int J Hyg Environ Health* 204:333-8. Abstract only available at: <http://www.ncbi.nlm.nih.gov/pubmed/11885357>. Full article available upon request.
